ELECTRIC VEHICLE CHARGEPOINT APPLICATION FORM

PLEASE COMPLETE THIS FORM AND RETURN IT TO:

Weald Living, Saxon Weald House, 38-42 Worthing Road, Horsham, RH12 1DT
or email a copy to info@wealdliving.com.

**PLEASE ONLY COMPLETE THIS FORM IF YOU HAVE AN
EXISTING, PRIVATE OFF-STREET PARKING SPACE.**

ELECTRIC VEHICLE CHARGEPOINT REQUIREMENTS:

- Parking space should be off-street, privately allocated and clearly defined.
- The charging point must be connected to your own electricity supply – not a landlord or shared supply.
- Saxon Weald can only grant permission for charging points on land owned by Saxon Weald.
- If you live on an estate which is managed by an external managing agent we may also need to seek permission from them.
- If the parking space is not adjacent to your property or is in a communal parking area, it may not be possible to grant permission if this would involve laying underground cables through communal land or land owned by someone else.
- You must use an installer approved by the Office for Zero Emission Vehicles (OZEV). The installer will give you a quote and advice for installing the chargepoints and any infrastructure work. Visit [GOV.UK](https://www.gov.uk) to find a OZEV approved installer.
- You should only install OZEV approved chargepoint models. There are different approved chargepoint models for [residential properties](#) and [commercial properties](#).
